# Mission Statement

**Stellar's mission is to spotlight the outstanding work done by creatives across the digital design universe.** The brand loves playing around with space themes in a game-ified way. Stellar has two meanings; related to stars and outstanding. Stellar aims to spotlight its users, who should shine because their work is exceptional.

Stellar is not just another social networking platform. Applying to your dream position is more streamlined than ever. Creatives have the ability to showcase their work on their own personal portfolio page. They can easily apply to job listings without having to fill out a new resume or cv each time.

Companies can do more than just post job listings. Stellar makes the hunt for the right candidate more efficient. Companies have the ability to hold virtual networking events and schedule interviews. They can truly get to know a candidate through viewing portfolios and one-on-one chats.

The image features the word "Stellar" in a white, italicized, serif font. The letters are partially submerged in a large, semi-transparent circle that has a vibrant gradient from purple at the top left to red in the center, and then to blue at the bottom right. This central circle is set against a dark, black background that is accented with several other colored circles of various sizes and colors, including purple, teal, pink, and white. The overall effect is a dynamic, space-themed graphic.
